

Sprint 1 Review Team-47

Expectations

1. Completed use-cases covering broad use of the system.

Comments: Good amount of use cases

2. Created UML covering the system.

Comments: No UML

3. Version₀ project created in team repository, being worked by team following software dev standards, and deployed to AWS using Jenkins.

Comments: No minimal project and Jenkins not setup

4. Demonstrated use of Jira.

Comments: Backlogs filled but no sprint started

Grade: D+
